Introduction

The 'serart' series of products are inspired by the 'freehand' expression of Chinese painting, which refers to the expression of the form, color and texture of objective things through the free expression of pen and ink to express the painter's subjective feelings and aesthetic taste. This art form emphasizes the artist's personality and creativity, the pursuit of a transcendent realm, is a unique artistic charm in Chinese traditional culture. Freehand painting works often show the vivid charm of nature, dynamic and static, giving people a quiet, comfortable feeling.
