HABITAT RHOMB COBBLE ZONE

HABITAT RHOMB

Cobble

Cobble was inspired by the spindrift. The blue of the carpet is like a wave, echoing the dark background color, bringing a new dynamic feeling to the overall carpet surface. Laid in the space, it will be like the waves of seawater hitting the rocks, stimulating the vitality of the interior architecture.

Zone

Zone uses line matching in the flat to create a dynamic visual effect. Hope can make people jump out of general thinking and stimulate energy and creativity. Give us physical and mental pleasure with the help of the carpet's softness.
